

## Route 6-10 Interchange Project

The Rhode Island Department of Transportation invites you to a community workshop and listening session about the Route 6-10 Interchange in Providence.

The Route 6-10 Interchange Project has infrastructure elements that have been in design for approximately 30 years. Within the project limits there are currently seven structurally deficient bridges that need to be addressed immediately. The project, which is of regional significance, consists of rebuilding structurally deficient bridges and reconfiguring the interchange to accommodate local and regional travel for commuters and businesses.

During the course of seeking funding from the Rhode Island General Assembly to fix the structurally deficient bridges, we heard from different stakeholders and have expanded the design to include a transit feature and a boulevard concept that would add open space, pedestrian connections, and a bike path, linking two segments of the state's bike network together and reconnecting two neighborhoods. Please join us to hear more!

Meeting locations and times are listed below:

Thursday, April 7, 2016	6:00 p.m. - 7:30 p.m.	Johnston Senior Center, 1291 Hartford Ave., Johnston, RI
Monday, April 11, 2016	6:00 p.m. - 7:30 p.m.	Community College of Rhode Island, 400 East Ave., Warwick, RI
Tuesday, April 12, 2016	6:30 p.m. - 8:00 p.m.	Webster Avenue School, 191 Webster Ave., Providence, RI
Wednesday, April 13, 2016	6:00 p.m. - 7:30 p.m.	Cranston Senior Center, 1070 Cranston St., Cranston, RI

*Please contact the Rhode Island Department of Transportation if translation or hearing-assistance services are needed at least 48 hours in advance at 401-222-2450 or [dot.customerservice@dot.ri.gov](mailto:dot.customerservice@dot.ri.gov).*
